WeedRoller[®] PRO

IT'S TIME TO TAKE CONTROL

The Weedroller PRO Is Ready To Work For You.

Features You Can't Get Anywhere Else!

21 Feet Of Lake Bottom Rollers

The three 7 foot rollers make the WeedRoller PRO easy to handle and bolt together with a steel coupler at the beginning and flexible couplers between the 7 and 14 foot lengths.

An optional coupler can be installed between these tube assemblies to provide additional flexibility. These couplers allow the rollers to follow variations in the contour of the lake bottom. All tubes are made of aluminum and are 6 inches in diameter. Add up to three more Rollers for a total of six. 42 foot radius of weed removal.

Auto Cycle

Your dealer can program the unit to cycle from 12 hours to 5 days. Simply press and hold the start button and the WeedRoller PRO does the rest.

Park

You chose where the unit starts and stops.

Time Out

The WeedRoller PRO senses heavy weed or muck conditions that may prevent it from getting through its full travel path on the first try. If sensed, it will automatically reverse rotation to avoid getting stuck. For further protection if unsuccessful after three attempts the unit will shut down to allow removal of the obstruction.

Dock Mounting

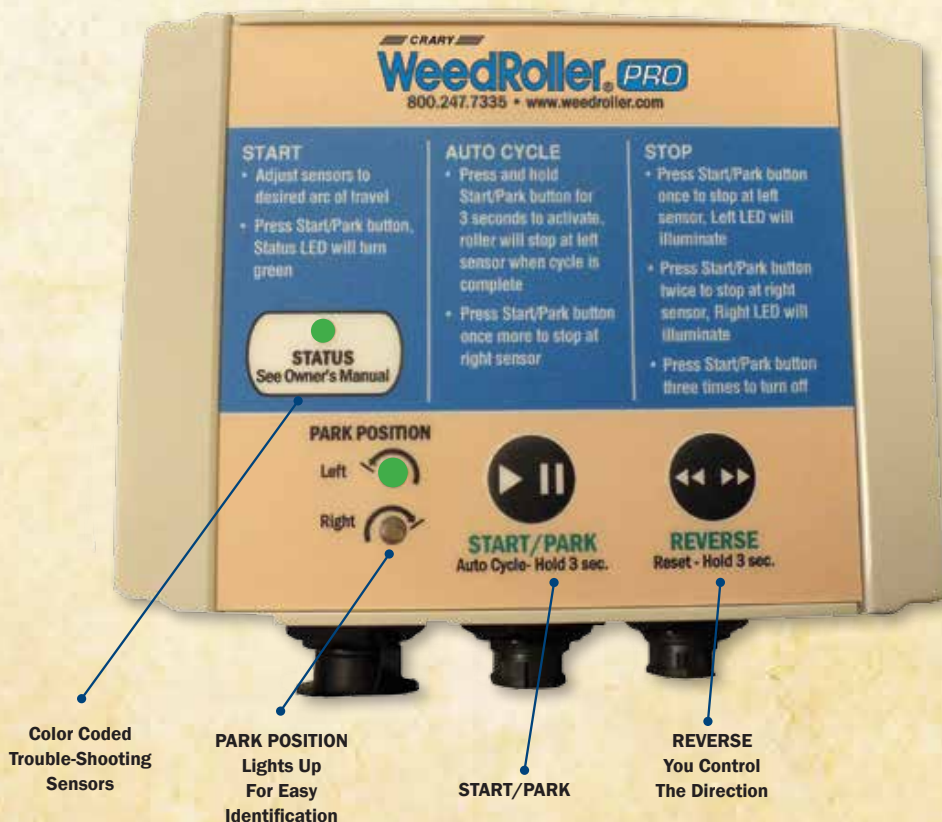

The basic hardware mounts to docks with support legs of 2 inch (or less) diameter round or square dock posts. There is also an optional tripod mounting kit, allowing it to be self standing.

Safety First

110-volt household current is converted to 28-volt AC through the power converter. Also included is an 8 amp circuit breaker on the 28-volt, AC side.

Operating Depth

The basic 28-volt WeedRoller PRO kit has enough clearance for 4.5 feet of water at the drive head.

ENJOY YOUR BEACH

A Sandy Lake Bed Awaits.

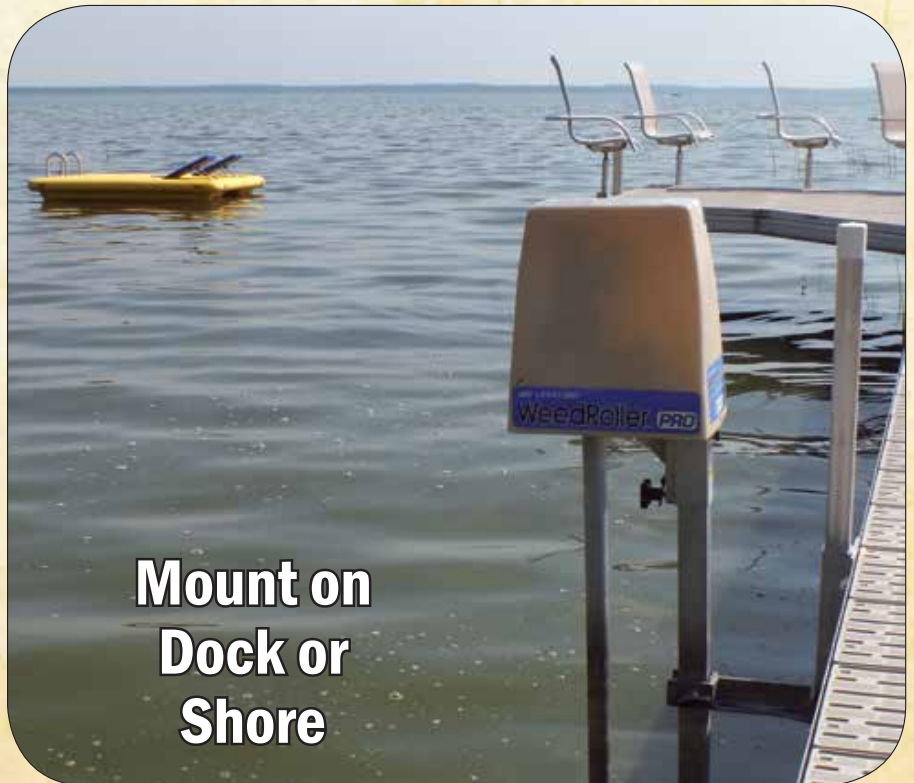

The WeedRoller PRO moves in a slow, broad arc, pivoting 300°

As its linked rollers rotate along the lake bottom they detach existing weeds and agitate the lake bed. This prevents weed growth and allows for a clean, sandy lake bottom and a great swimming area!

**No harsh chemicals.
No back breaking rakes.**

**HANDS-FREE
OPERATION**

ACCESSORIES & PARTS

Customizing Your Weedroller PRO Is Easy.

Flex Coupler

If your lake bottom is fairly uneven you will want to consider adding flex couplers in between the connection points of your WeedRoller PRO tubes. **Part #51192**

Lake Bottom Rollers

The WeedRoller PRO comes standard with 21 feet of lake bottom rollers, offering you a 42 foot diameter reach. If you're looking for more coverage, additional 7 foot tubes are available. Expand for a total of 84 foot diameter. **Part #51302**

Deep Water Extension

If your environment requires a longer reach to the bottom of the lake, a deep water extension kit can be added to ensure the motor head is far enough above the surface of the water. (Maximum of two kits per unit) **Part #51301**

Dock Mounting Kit

Additional kits make moving your WeedRoller PRO from one location to another quick and easy. **Part #51188**

Mud Kit

If your lake bed is excessively muddy or filled in with years of silt and muck, a mud kit will keep the WeedRoller PRO moving. **Part #51320**

Side Post Mounting Kit

Adding a side post to your dock is easy. Simply mount the custom post bracket to the desired location on your dock. Slide the new side post into the securing bracket and tighten. **Part #51351**

Tripod Mounting Kit

Installing a tripod mounting kit offers the flexibility to use your WeedRoller PRO independently of any other structure. **Part #51181**

Extension Cords

Your WeedRoller PRO will come with a durable, 70 foot AC power cord. If you need an additional 25 feet, no problem. Simply order this handy extension cord kit to get the extra length you need. Get power where you need it while maintaining a professional, seamless look to your WeedRoller PRO installation.

25 foot: **Part #51343-00**

70 foot: **Part #51327-00**

Maximum operating specs

- Adjustable up to a 300 degree arc.
- Operates in up to 9.5 feet of water at the power head.
- Extendable to 42 feet of lake bottom rollers.
- 10 degrees of flex for each flexible roller joint.
- Environmental - WeedRoller PRO has been approved by most state environmental agencies. Specific approval or permits may be required. Always follow state and local regulations when using your WeedRoller PRO. Gather and properly dispose of weeds that are removed upon initial use. For specific information regarding your region's regulations, see your local WeedRoller PRO dealer.

“

“I’ve used the Crary WeedRoller for about 20 years on my lake front property and would choose no other way to control the lake weeds. It is an eco-friendly alternative to get rid of lake weeds and helps keeps the environment clean, in addition to creating an area for fish spawning. It’s a great investment and will increase the value of my lake home for years to come!”
